

SOPHIA AI Ecosystem

1

Awareness

Key Activities

AI, Data and Cyber Security **training** and literacy.

2

Assessment and Strategic Alignment

Assessment of internal processes and businesses to evaluate the **AI, Data** and **Cyber Security** readiness.

Identification of **key processes**, **pain points** and **case studies**.

3

Design AI Roadmap

Identify roadmap of **initiatives** for the implementation of AI solutions.

Get your **Data** ready and sustain your AI solutions.

Integrate **Cyber Security** from AI testing to deployment.

4

AI Pilot

AI proof of concept (PoC):

- Identify **correct** AI solutions
- Train, test and validate AI solutions

5

AI Optimisation and Scaling

Move from PoC to scale to **fully deploy and scale** the AI solutions.

Change Management Process Flow
